DeCAIR

Developing Curricula for Artificial Intelligence and Robotics

DeCAIR project develops a new MSc program in artificial intelligence and robotics (AIR) at the University of Jordan, a new BSc program in Intelligent Systems at Tafila Technical University, and AIR courses of current BSc and MSc programs at the partner Jordanian and Lebanese universities. The project also builds capacities in AIR through transfer of European expertise, academia and industry networking, development of new laboratories in AIR, and strengthening cooperation with local, regional, and European companies to apply AIR technologies.
